PREFACE

This first Supplement to Federal Government Publications Selected for High School Libraries provides a selection of material for the period June 30, 1973 to January 31, 1974. An alphabetical title index for all items in both the first edition and the supplement has been added.

An Addendum to the first edition lists those publications which are no longer available, and new addresses for Departments and Agencies.

A French language edition of this Supplement is also available from Information Canada. It contains items published only in the French language and those that are published bilingually. Each entry in both editions indicates if the item is available in the other official language.

Since the distribution of the first edition in January 1974, Information Canada has received considerable response indicating the value of this service. A revised edition is planned for September 1974. Therefore, your suggestions will be appreciated. Please address your comments to:

ORDERING INFORMATION

PART I

Priced publications may be purchased directly from Information Canada, Ottawa. K1A 0S9

To simplify ordering procedure, an itemized "checklist" order form has been included. When accompanied by an official purchase order from your purchasing authority, discounts will be calculated and an invoice forwarded. Do not send payment with your order.

All prices are subject to change without notice.

PART II

Free publications must be requested directly from the departments and agencies concerned. Addresses are provided for each department and agency. Please note special addresses which accompany some titles. Some free publications are limited in number and each department reserves the right to limit the number of copies supplied. Publications are distributed on a "first-come-first-served" basis.

PLEASE: ALWAYS INCLUDE IN YOUR ORDERS THE CATALOGUE NUMBER
(Cat. No.) WHERE INDICATED

VOLUME 1. - 385p. Illus., charts.

Contents - Computer communications in Canada: an overview - policies and general recommendations.- Computer/Communications services. Stimulation of development.- Institutional arrangements.- In conclusion.

\$6.00 per copy

Cat. No. Co21-2/1972-1

VOLUME 2. - 176p. Illus., tables, chart.

Contents - Jurisdictional and legal aspects of computer/Communications in Canada.- Applications of computer/communications in Canada in three fields of social significance.- Automation of payments and credit.- Applications in education.- Computers, communications and Canada's health care delivery system.

\$5.00 per copy

Cat. No. Co21-2/1972-2

This report considers computers and communications in Canada in the 1970's. It grew out of the earlier Telecommission studies and presumes a knowledge of the Telecommission report Instant World (see No. 27). Being very technical, it will be of value only to those interested in in-depth computer studies.
